HON. WM. L WILSON ON THE NEW IMPERIAL POLICY.

Hon. William L. Wilson, president of Washington and Lee University, in his weekly address on Saturday morning before the students of the university, spoke upon the developments brought forth by the pres--ut war between the United States and Spain. He said that Ameri-ca's pride had naturally been aroused vith the victory at Manila, but in the ou i it might produce disastrous results to the well being of our country. This victory had brought this country face to face with the great Eastern question, which had been the leading question for over half a century in European politics, and had been the direct cause f several wars.

Mr. Wilson called attention to the fact that at even at this stage a porion of the press and people were advo-cating the retention of the Philippine Islands by the United Sates, and cointed out the dangers which would the course of events result from uch a course, which would be a radical departure from the past olicy of the government, and the ad-ice which was contained in George Vashington's farewell address. He said that the vast complications which

vould result from this eastern question, a which we are urged at present to Europe to keep large standing armies at d build large navies, thus steadily increasing debts and taxation, while the onservative policy of America had enthled the development of a good gov-ernment, with sound laws and light axation.

President Wilson expressed the opin ion that the best course for us was to follow the teachings of the republic's fathers, rather than the course pursued by the jingoes and yellow journals of the present, to strictly adhere to our past policies, and rely upon justice and the world's respect for our position, rather than upon a large army and expensive navy and a jingo policy.

ARMY UNFIT FOR INVASION.

A dispatch from Washington says With every disposition on the part of he executive to make the present war short it is beginning to be realized that the shortcomings of our military ser vice are so many that delays are inevitable and that much work will be nec e-sury to put the nation in efficient fighting shape. Every day brings forth some weak spot. Nearly a month after the formal declaration of war, the War Department on Thursday pur chased a number of shelter tents, and it has just secured the hammocks that the experts say are essential to exist ence in Cuba.

To maintain the army of 200,000 men for s x months will cost \$30,000,000, according to estimates prepared by Pay naster General Stanton, and the lead ing officials are beginning to fear that nostilities may run along beyond that period. The reason is the growing conviction on the part of some of he officers that they must not reckon on any substantial assist-nce from the Cuban rebels in this campaign and must meet the Spaniards n Cuba in their strongest sphere, that of the defensive.

General Mil s is quoted on the subject of the Cuban invasion as having said to a friend:

"The army is not now in shape for the invasion of Cuba, and a great deal of hard work will be necessary before it can be put in proper condition for such a campaign. It lacks discipline, and, in fact, is deficient in a little of everything that enters into the proper quipment of an army for actual campigning. Better raw material for a magnificent army was never collected together, but more than that is required for effective operations in a hostile c untry under adverse climatic condi-

It was very plain from the general tone of his conversation that several weeks must elapse before the volunteer army will be ready. By that time the rainy season will be approaching its

Robbed the Grave.

A startling incident, of which Mr. John Oliver of Philadelphia, was the sutject is narrated by him as follows: "I was in a most dreadful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite—gradually growing weaker day by day. Three physicians had given me up. Fortunately, a friend advised trying 'Electric Bitters:' and to my great joy and surprise, the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man. I know they saved my life, and man. I know they saved my life, and robbed the grave of another victim."

No one should fail to try them. Only 50 cents per bottle at E. L. Allen's Toches. The combined with Iodide of Potassium and Iron. Formula on every bottle. Price 75 cents Drug Store.
